# Table of Contents 2009

## January/February

- 2 Global News – World leading foundry group adapts to current downturn in economic climate; Georg Fischer completes successful first melt in new foundry in China; The Health & Safety Executive (HSE) has recently published new LEV guidance; North American company snaps up German metalcaster; NovaCast receives Camito order from large European manufacturer.
- 3 New suspension for the casting industry adheres securely to metal substrates; ABB wins automation seamless pipe mill order in Brazil; Supplier asks foundries to look to the future; Chinese officials from Harbin Electric Company (HEC) have signed a pioneering multi-million pound trade agreement; The European Aluminium Association (EAA) has elected Rudolph P Huber as the new EAA Chairman; CHIPs 2002 (Chemicals Hazard information and packaging for supply) regulations have been amended.
- 4 Double success for DavyMarkham; Attention to detail; NovaCast subsidiaries cut back; Low cost learning about SLS and DMLS; The Aluminium Association (Virginia, USA) has published its 2009 'Aluminium Now' Buyer's Guide; The Surecast/Caress Precision Group has appointed Ian Cooper as Sand Foundry Manager.
- 5 Product News - Comprehensive, easy to use kit for noise measurement; Austrian information system reduces maintenance costs; Professional - UK engineering profession adopts revised standard.
- 6 Professional – The Engineering Profession in the 21<sup>st</sup> Century – education needs and societal challenges facing the profession – Part III (Part I November 2008, Part II December 2008), Diran Apelian, Howmet Professor of Engineering, USA.
- 7 The Armenian Academy of Sciences elects Diran Apelian as a foreign Member.
- 8 Awards dinner celebrates the 'Best of British Casting': Stunning cast metal 'shell' wins top award, Vibration management system wins top supplier award 2008
- 9 Historic foundry awarded for a year of achievement.
- 10 Automation – Automated shot blast solutions for high value castings; Production planning software and automation solutions.
- 14 A matter of time and quality
- 16 High flexibility robot fettling
- 17 Supply Trends – Save energy, save money and help protect the planet.
- 18 Metal supply is a permanent challenge; Energy costs and supply will continue to bring great challenges.
- 20 Energy costs for aluminium casting.
- 22 2008 – A roller coaster for metal prices; Metal Prices.
- 24 Technical Paper – Processing and properties of magnesium alloys in the semisolid state.
- 31 UK Regional ICME News – Scottish Branch technical meetings; Branch and Section programmes.
- 32 Health & Safety/Environmental – Why investigating accidents is important, CMF.

## March

- 34 Global News - New Greenfield foundry for iron castings up to 4 tonnes; Citation Corporation of Michigan, USA has acquired lost foam supply company Foseco-Morval of Bessemer, Alabama; The Economics of Niobium (11<sup>th</sup> Edition); Thermo Fisher Scientific has developed a unique solution to provide fast and efficient impurity analysis of solid metals; Purchasing monolithic refractory materials.
- 35 UK founder enhances pouring capacity with giant ladles; Inauguration of IMF Brazil; Ashland announces new Casting Design Services Centre in India; Meehanite partner-company buys Finnish wind turbine caster.
- 36 Diecasting sales down; A lifeline for SMEs; Software supplier bucks the trends.
- 37 Gulf aluminium industry combines to launch new organisation.
- 38 Professional – The Engineering Profession in the 21<sup>st</sup> Century – educational needs and societal challenges facing the profession – Part IV, (Part I November 2008, Part II December 2008, and Part III January/February) Diran Apelian, Howmet Professor of Engineering, USA.

- 41 Training for a new approach to production control (Synchro<sup>32</sup>).
- 42 Education and training – Helping today's students become tomorrow's leaders.
- 43 Apprenticeships – the key to fighting skills gaps; WTF Brno 1-3 June 2009.
- 44 Launch of degree to enhance industry performance.
- 45 No excuse to reject training.
- 46 Impregnation can make sound sense.
- 47 Recycle/re-use – Japanese technology for runner recycling; European Recycling Associations urge governments to pursue energy savings.
- 48 Waste not, want not, (Gideon Hillman Consulting): One man's trash is another's treasure.
- 50 Piston cylinder repair keeps Thomas on track; Half a century of reclamation expertise.
- 51 Briquetting of aluminium and bronze chips.
- 54 Technical Paper – Undercooling, nodule count and carbides in thin walled ductile cast iron.
- 58 Technical Paper – Enhancing competitiveness of European SME iron foundries by full customer service concept using local production and outsourcing.
- 61 Metal Prices.
- 62 UK Regional ICME News – Yorkshire Branch Annual Dinner Dance; ICME announces the deaths of Mr B Calvert FICME West Midlands, Birmingham and Coventry Branch and Mr W R Hunter Prof MICME Scottish Branch; The future's young; Job seekers take note.
- 63 Technical theme to branch quiz; Obituary: Mr G L Turner BSc, BA, FIM, MIBF; Celebrate in style.
- 64 Health & Safety/Environmental – Managing health and safety in hard times.

## April

- 66 Global News - BSC to play leading role in HSE's new H&S strategy; 66<sup>th</sup> Annual World Magnesium Conference; New kit at Bodycote Testing makes a big impact; More market reports; NovaCast broadens global foundry business; Bloomberg reported that German manufacturing orders collapsed in January 2009 recession; FW Hempel Metals Ltd.
- 67 Gulf of Mexico oil and gas production reliant on Sheffield engineering; ARRK's rapid metal casting service to the rescue; Revised forecast: metalcasting shipments decrease 2.3 million tonnes in 2009.
- 68 More aluminium transmission lines for U.S; Omega agents get together in Istanbul; Subcontracting sector shows hidden strength in UK manufacturing; Big names in surface engineering come together.
- 69 Product News - Ultrasonics cleans off weld discoloration; The new benchmark for standardless analysis; NDT inspection data with just a Windows-based PC and web browser.
- 70 Professional - ICME member profile – Carl Reilly; £65m available in England for skills investment in metals sector; Grants and Trusts to support training for individuals; EngTech registration continues to grow.
- 71 Developing the continuous casting dream; Maximising foundry business opportunities in the current economic climate.
- 72 Japan - Japanese production feels the pinch after good growth.
- 77 Refractories: best practice and use for melting and holding; Engineering for success – Technical workshop for foundry engineers 12-13 May 2009.
- 78 Investment casting growth continues.
- 79 Metal Prices.
- 80 Light Alloys - Transport drives light-weighting research.
- 83 Light metals research in Scandinavia.
- 84 Alloy development broadens magnesium's appeal.
- 86 Technical Paper – Simulating the production of casting moulds using clay-bonded moulding sand compaction as an example.
- 89 Technical Paper – Enhanced throughputs in foundries by constraints based planning methodology using a special ERP.
- 93 UK Regional ICME News – George England, pioneer locomotive builder, and the Hatcham Ironworks.
- 96 Health & Safety/Environmental – HSE issues safety alert concerning molten metal explosions.

## May

- 98 Global News - New compressed air system reduces carbon

- footprint; NEWCAST cancelled; Keeping the British foundry industry in the loop.
- 99 Royal recognition for furnace manufacturer; NovaCast Technologies co-ordinates production chain for Camito dies; New HSE workplace air quality guidance and enforcement.
- 100 New international standard on classification of microstructures; AFS metalcasting congress a hit in Vegas; Massive lathe for big business; Melting facility upgrade to satisfy demand; Aluminium complex components wins casting competition.
- 101 Professional - Fit for purpose casting design; Enquiries rise at Engineering Council UK as recession tightens job market; Worshipful recognition.
- 102 Flexible and safe transport of liquid metals (Schenk Werkzeug- und Maschinenbau GmbH & Co).
- 103 Furnaces – Risk from molten metal explosion due to water contamination.
- 104 Thirty years of pouring furnaces for grinding media production.
- 105 Aluminium ingot preheater saves energy cost.
- 106 Melting stock for cutting-edge foundries (Uddeholm Tooling AB)
- 107 Filtering ideas improve performance for launder users (Pyrotek Inc).
- 108 Why pre-heat ingots? (Ing Rauch Fertigungstechnik).
- 109 Health & Safety – A new strategy for today's environment.
- 110 Putting safety first when operating fork lifts.
- 112 The advantages of anti-fatigue and safety mats.
- 113 Leading the way for Health & Safety training; Working safely at height.
- 114 Foot protection in a foundry environment
- 115 Pocket Power! Inflatable bags for safer working; Metal Prices
- 116 Technical Paper – Using the CDC process for the casting of low-cost functionally gradient materials.
- 119 Technical Paper – Gating system design to cast thin wall ductile iron plates.
- 126 Health & Safety/Environmental – Health & Safety Offences Act 2008 – Tougher penalties for offenders.
- 127 UK Regional ICME News – Lancashire Branch technical meeting, The production of cylindrical castings; New members at Forgemasters.
- 128 Chesterfield and Sheffield Branch technical meeting, Optimisation methods and software solutions for foundries; Branch and Section Programmes; Scottish Branch to cancel Peebles weekend; Remet Award for an Apprentice.

## June

- 130 Global News - Wheelabrator and DISA complete merger and vow to drive down costs; Novacast subsidiaries Camito and SwePart Verktyg have receive order for two large progressive tools weighing 35 tonnes from Gnotec Mefa; Prototype at the world's largest single site aluminium smelter complex.
- 131 Pangborn merges with European shot blast industry leaders; British furnace constructors keep up-to-date; Turbine engineers – look no further; Graphite Sales; Setting new standards in foundry engineering; The Midson Group list 20 rheocasting methods on their website.
- 132 ASK Chemicals – exclusive distributor of SphereOX® in Europe; Royal seal of approval; Grede Foundries closes one of its North American plant; VDG celebrates centenary; American national standards ANSI H35 revised.
- 133 The viability of chromite separation equipment to reduce costs; Representatives from cast metals industry meet with Secretary of State.
- 134 Professional – Engineering Council UK welcomes new National Apprenticeship Service; New ETB Professional Panel set to advise on development of engineering; Tomorrow's manufacturers pick up accolades; Remet Award for an Apprentice
- 135 Global News – A diamond of a project.
- 136 Company profile – A decade of development and an eye to the future.
- 138 Sand control & testing – Total carbon control in greensand systems.
- 140 Ramming home latest technology.
- 141 Constant compactability where it really matters.
- 143 Diecasting News – Support for Australian diecasters.
- 145 Modular high-pressure diecasting concept for high performance aluminium cylinder blocks.

- 147 German die maker defies the crisis.
- 148 Optimising diecasting die production.
- 149 Brazilian-German instructor team gets close to diecasting.
- 150 Helping take thixocasting from laboratory to shop floor.
- 152 Faster casting.
- 153 Metal Prices; Nemak Poland at a glance.
- 156 Technical Paper – Resource savings by optimising process conditions in foundries
- 159 Environmental Health & Safety – Skid-steer loader safety alert following fatal accident; UK Regional News – North East Branch annual dinner dance; Letter to the Editor from Phil Shakles Prof MICME.

## July/August

- 162 Global News – Hard decisions for Castings Plc; Toyota UK to make hybrids in 2010; Automotive supplier 'bucks the trend'; High-performance alloys provide outstanding strength and ductility; The World Foundrymen Organization will change its name to the World Foundry Organization with effect from 1 January 2010; Componenta Heerlen foundries merged as one business.
- 163 Memorial casting an emotional experience; Grede Foundries seeks new owner; US aluminium automotive diecaster faces bankruptcy; Leading truck group chooses Novacast.
- 164 China dominates global aluminium industry; Boeing backs research into thermoplastic composites; BSI Standards for review; NovaCast sets up US office for upswing in economy.
- 165 Canadian investment caster steps up to the European plate; Alro SA has invested in a new annealing furnace with controlled atmosphere; Shortage of engineering talent despite recession.
- 166 Numbers of visitors to subcontracting show increase by a third; Monster machine makes a mark.
- 167 Australia's First Chartered Environmentalist; Improved precision in wind energy metal castings; Pakistani automotive foundry doubles capacity.
- 168 New member of the management team at Synchro; ABB Ltd has launched an online 'return on investment' calculator; ESI UK casting user group meeting; Professional – sustainable engineering - EC<sup>UK</sup> guides the profession; Foregmasters staff forever learning.
- 169 Simulation and design – Casting simulation of real filters.
- 170 Casting design-something for a foundry to do?
- 172 Can thin-wall castings be simulated?
- 174 NDT – Non-destructive testing of heavy cast steel components.
- 176 Advertorial – New sand preparation system in Turkey implemented with the Evactherm® process; Reduced bentonite consumption; Economical moulding sand preparation.
- 177 Getting real time with radioscopic inspection.
- 178 Searching for the invisible using fully automatic x-ray inspection.
- 180 Ultrasonic versus radiography for thin-walled castings.
- 182 Technical Paper - Some like it hot - radio frequency identification optimises production and delivery processes for cast aluminium.
- 183 Metal prices.
- 184 Technical Paper – ADI solutions in Europe.
- 190 Institute News – ICME National Officers 2009-2010, National President; ICME President's address.
- 191 ICME Senior Vice President; ICME Junior Vice President; Scottish jewellery maker provides a chain reaction.
- 192 UK Regional ICME News – West Midlands, Birmingham and Coventry Branch – West Midlands Foundrymen's Society Golf Day; Fishing competition.
- 193 ICME Branch and Section Programmes.

## September

- 194 Global News - UK ships first nuclear power component to China; ARRK's prototyping operation adds new 3D scanning service.
- 195 German foundry machines bigger parts with US\$720,00 investment; Ancient checkmate; Largest Camito order to date for NovaCast Technologies' subsidiaries; Saint-Gobain expands research centre; ESW acquires Miller Centrifugal Casting Company.
- 196 Imerys Foundry Minerals Europe (IFME) host CMF Investment

- Casting Forum; UK investment caster makes speedy delivery for Spykers cars; Scottish manufacturing and trade businesses struggling to secure investment.
- 198 Trade Association meets industry needs; Overwhelmingly positive results at Aluminium China; Instant lubricant degradation measurements in the field; CERAM is extending its refractory service to the glass and petrochemical industries.
- 199 Professional - Casting Technology Foundation Degree.
- 200 That was then, this is now (R&D Concepts Ltd Synchro<sup>32</sup>).
- 202 Profile – Ten years working together in the UK market, (Striko UK Ltd).
- 204 Compressed Air – Attention to detail pays dividends (The British Compressed Air Society).
- 205 Sporting fun for a good cause. (Omega Foundry Machinery Ltd raise money for Sports Aid Foundation).
- 206 Simple steps for bigger rewards (compare).
- 208 Power – We've got the power and the capacity! (Alstom).
- 209 Polish Energy Market – an overview.
- 210 At the hub of green energy technology, SeaGen statistics (Coupe Foundry).
- 211 ADI powers new markets.
- 212 Cutting the MWhs for increased competitiveness (SWECAST AB).
- 214 Technical Paper – New customer-supplier relationships and foundry technology developments (TABIRA, Foundry Institute and Azterlan, Metallurgical Research and Foundry Centre, Spain).
- 218 Metal Prices; SHIFT Southern Region members visit Precision Disc Castings.
- 219 Technical Paper – Hot-work steels with improved properties for diecasting applications.
- 224 UK Regional ICME News – Branch and Section Programmes; Scottish Branch president's thank you (John Paterson FICME).
- technology at own foundry; Continued investment at CastAlum; A familiar face back at the helm; New generation steel degassing system installed in India.
- 259 Has it really been two years? (FESA); ADI Treatments extends castings heat treatment services; A/S Temponik sold to Ide-Pro Skive A/S.
- 260 Strong leadership helps a foundry tooling and patternmaking business mark 20 years in business; Castings industry standards; The British Metals Recycling Association (BMRA) extended scrappage scheme by £100m; Poor payment tops list of business owners' concerns in latest Economic Downturn Panel survey; An environmental solution at the core for BMW Group.
- 261 UK foundry hosts civic dignitary in special year (Gabriels); Investment caster becomes a strategic supplier for Airbus; Professional – Recognition of employees – valuing technicians.
- 262 Transport – Defying expectations drives victory for casting technology.
- 264 Geared to the future (Georg Fischer).
- 265 The sky's the limit for near net-shape castings.
- 266 Astute casting technology aids submarine propulsion.
- 267 Bronte Precision develops specialist machining capacity.
- 268 Steel casting for Vienna's new ultra-low-floor tram.
- 270 Adding Value – Vital factors to determine the resurgence in Indian foundries.
- 272 Superior service and cost control – the way forward (Thomas Foundry, South Africa).
- 274 Foundries – the final frontier AFS.
- 275 Adding value and technical innovation – knowledge is the future.
- 276 Technical Paper – Dross in ductile iron: source, formation and explanation.
- 281 Metal Prices.
- 282 Technical Paper – Pressure assisted processes for high integrity aluminium castings – Part II.
- 288 UK Regional ICME News – West Midlands, Birmingham and Coventry Branch technical lecture.

## October

- 226 Global News - JVM Castings recycled alloy programme; HSE guidance and approved codes of practice – free of charge online; British engineering takes centre stage at Russian conference.
- 227 Countdown begins to Queen's Awards for Enterprise 2010, Help for small firms on employment law; The Aluminium Association 2009 Buyer's Guide; Rise in Global demand for metals.
- 228 Payback within a year for casting conversions; Cirrus introduces black 'doseBadge'.
- 230 Shake out success for IMS; If you can't stand the heat-diversify.
- 231 Professional – Apprenticeships hailed as important as ever.
- 232 Company Profile - Invest to be the best (Coupe Foundry).
- 234 Filtering out the hassle (Industrial Filter Services Ltd).
- 236 Working with the Environment - Dust and fume control for foundry processes (Dantherm Filtration Ltd)
- 238 Moulding & Coremaking - Leading the way in core handling and assembly (Fritz Hansberg SpA).
- 239 Special cores for special castings- Rolls Royce Foundry in Bergen, Norway (DISA industries A/S)
- 240 Italian technology helps Chinese gain world status (IMF srl).
- 241 When only complete reliability will do (Buhler Group).
- 242 Fast-loop solution for Turkish Caster (Omega Foundry).
- 243 Interesting machinery for small foundries (R Scheuchl GmbH).
- 244 Keeping it simple provides a Turkish delight (FTL Foundry Equipment).
- 245 Laempe & Mössner acquires Hottinger's spare parts business; Four decades of service (italpresse)
- 246 Technical Paper – Influence of applied pressure on tensile properties and material densification of squeeze cast Mg-Al-Sr alloy.
- 250 Technical Paper – Pressure assisted processes for high integrity aluminium castings – part I.
- 255 UK Regional ICME News – Branch and Section Programmes; Metal Prices.

## November

- 256 International Industry Events 2010.
- 258 Global News - NovaCast starts CGi production with Graphyte

## December

- 290 Global News - A very special birthday in the birthplace of industry; TITAL is one of two in the world.
- 291 Foundry branches out for 'Band of Brothers'; A picture speaks a thousand words.
- 292 Latest Foseco DYCOTE range boosts productivity and extends die life; Stainless steel processing: from rough sanding to mirror polish.
- 293 Magnetics company handles the 'hard to handle'; Magnets lift heavy weight with one finger.
- 294 Die lubricants free from silicone for high pressure diecasting; New product applications and innovations with optimised process controlled melt treatment.
- 295 Matthew Rutter 1954-2009.
- 295 Professional News - The Engineering Diploma - a qualification for teenagers.
- 296 Company Profile - Let the good times roll by leading the way in Europe (Inductotherm Europe Ltd).
- 298 European Industry Review - European casting markets today (and tomorrow) - a long term forecast.
- 301 Health & Safety/Environmental - The heat is on for workplace temperatures
- 302 Binders and Coatings - Holistic evaluation of a binder system
- 304 Reclaimable inorganic binder system reducing environmental impact.
- 306 How one results-oriented foundry applied itself.
- 308 Technical Paper - Experimental analysis of flow of ductile cast iron in stream lined gating systems.
- 311 Metal Prices.
- 314 Technical Paper - Novel creation and control of sand mould press casting 'post filled formed casting process'.
- 319 UK Regional ICME News - Any industry is only as good as its people - ICME Awards 2009.
- 320 Foundrymen honoured by branch; When I grow up I want to be an engine driver; Music, fun and a plea for the future; Latest developments in induction furnace technology; Branch launches technical seminar.

# European Investment Casters Federation (EICF) News 2009

## March

- 52 Record attendance at 12<sup>th</sup> World Conference, Dallas, USA; Past conference proceedings on CDs; Technical workshop for foundry engineers.
- 53 High-tech entrants for casting contest.

## June

- 154 Process technology for investment foundry engineers – the de-waxing process.
- 155 Avignon Ceramic extends its capacity.

## September

- 222 Process related testing for improved injection performance.
- 223 Technical Workshop at Tecnalia-Inasmet, San Sebastian; Krakow named as 2010 conference venue; New Board of Directors elected at AGM.

## December

- 312 European Heritage; Ransom & Randolph take over the distribution of Levasil binders; Turkish Foundries join the EICF.
- 313 Feinguss Blank investment castings developed to enhance limited edition Mercedes cars; EICF 27th International Conference and Exposition 2010, Call for Papers.

---

## Index to papers 2009 Author Index

### **Aguilar J, Bührig-Polaczek A – Germany**

Processing and properties of magnesium alloys in the semisolid state. January/February No. 3661 – Pages 24-30

### **David P, Massone J, Boeri R, Sikora J – Argentina**

Gating system design to cast thin wall ductile iron plates. May No. 3664 – Pages 119-126

### **Fuchs K D – Germany**

Hot Work Steels with improved properties for diecasting applications. September No. 3667 – Pages 219-221

### **Gagne M, Paquin M P, Cabanne P M – Canada**

Dross in ductile iron: source, formation and explanation November No. 3669 – Pages 276-280

### **Jorstad J, Apelian D – USA**

Pressure assisted processes for high integrity aluminium castings – Part I. October No. 3668 – Pages 250-254

### **Jorstad J, Apelian D – USA**

Pressure assisted processes for high integrity aluminium castings – Part II. November No. 3669 – Pages 282-287

### **Terashima K, Noda Y, Kaneto K, Ota K, Hashimoto K, Iwasaki J, Hagata Y, Suzuki M and Suzuki Y - Japan**

Novel creation and control of sand mould press casting post filled formed casting process. December No. 3670 - Pages 314-318

### **Leceta J J, Gonzales X, Izaga J – Spain**

New customer-supplier relationships and foundry technology developments. September No. 3667 – Pages 214-218

### **Lenz R – Germany**

Simulating the production of casting moulds using clay-bonded moulding sand compaction as an example. April No. 3663 – Pages 86-88

### **Midson S J, Weiss D J, Browne D J – USA & Ireland**

Using the CDC process for the casting of low-cost functionally gradient materials. May No. 3664 – Pages 116-118

### **Nordlund H, Piha O, Orkas J, Nini E, Saarelainen T, Makkonen P – Finland**

Enhancing competitiveness of European SME iron foundries by full customer service concept using local production and outsourcing. March No. 3662 – Pages 58-61

### **Pedersen K M, Tiedje N S – Denmark**

Undercooling, nodule count and carbides in thin walled ductile cast iron. March No. 3662 – Pages 54-57

### **Rimmer A - England**

ADI solutions in Europe July/August No. 3666 – Pages 184-189

### **Singh V, Mani V G S – India**

Enhanced throughputs in foundries by constraints based planning methodology using a special ERP. April No. 3663 – Pages 89-92

### **Skov-Hansen S, Green N and Tiedje N S - Denmark and England**

Experimental analysis of flow of ductile cast iron in stream lined gating systems. December No. 3670 - Pages 308-311

### **Tiedje N S, Drivsholm C, Crepez R – Denmark**

Resource savings by optimising process conditions in foundries. June No. 3665 – Pages 156-158

### **Wang S, Zhang Q, Hu H – Canada**

Influence of applied pressures on tensile properties and material desiccation of squeeze cast Mg-Al-Sr alloy. October No. 3668 – Pages 246-249

### **Weinlander M – Germany**

Some like it hot - radio frequency identification optimises production and delivery processes for cast aluminium. July/August No. 3666 – Pages 182-183
